Anti-Neurotoxin AahII [4C1] Bulk Size Ab00366-1.1-BT

This reformatted mouse antibody was made using the variable domain sequences of the original mouse scFv format for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Mouse IgG1, Kappa

Clone Number: 4C1

Alternative Name(s) of Target: neurotoxin II, alpha-mammal toxin II

UniProt Accession Number of Target Protein: P01484

Published Application(s): NTRL, ELISA

Published Species Reactivity: Androctonus australis hector

Immunogen: C-terminus of AahII

Specificity: This scFv binds specifically to the C-terminal region of the toxin.

Application Notes: This scFv binds to the C-terminus of the neurotoxin AahII, which binds and blocks sodium channels in a voltage-independent manner. The antibody neutralizes the toxin.

Antibody First Published in: Mousli et al. 1999 A recombinant single-chain antibody fragment that neutralizes toxin II from the venom of the scorpion Androctonus australis hector. FEBS Letters 1999; 442(2-3):183-188 [PMID:9928998](#)

Note on publication: Describes the engineering of an scFv that, similar to the whole antibody, neutralizes the activity of the neurotoxin.

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg /ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
