## Anti-Collagen Type II [mAb 1-5] Bulk Size Ab00399-1.4-BT

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This reformatted mouse antibody was made using the variable domain sequences of the original Mouse IgG2a format, for improved compatibility with existing reagents, assays and techniques.

**Isotype and Format:** Mouse IgG1, Fc Silent™, Kappa

**Clone Number:** mAb 1-5

**Alternative Name(s) of Target:** COL2

**UniProt Accession Number of Target Protein:** Q91VF6

**Published Application(s):** ELISA

**Published Species Reactivity:** Human

**Immunogen:** Human recombinant collagen II.

**Specificity:** Binds specifically to human native type II collagen.

**Application Notes:** This antibody binds to human collagen type II, a fibrillar type of collagen and the main collagenous component of cartilage.

**Antibody First Published in:** Ito et al. Quaternary structure-dependent idiotope and antigen binding of a monoclonal antibody specific for conformational epitope on type II collagen. Cellular and Molecular Life Science 1997; 53(1)51-60 [PMID:9117997](#)

**Note on publication:** Describes the generation of an anti-collagen II antibody that binds specifically to the native form.

### Product Form

**Size:** 1 mg Purified antibody in bulk size.

**Purification:** Protein A affinity purified

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg /ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic

procedures for humans or animals.
