## Anti-Glucose-dependent insulinotropic Receptor [Gipg013] Bulk Size Ab00424-2.3-BT

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This full-length, reformatted mouse antibody was made using the variable domain sequences of the original Mouse scFv format, for improved compatibility with existing reagents, assays and techniques.

**Isotype and Format:** Mouse IgG2a, Fc Silent™, Lambda

**Clone Number:** Gipg013

**Alternative Name(s) of Target:** GIPr

**UniProt Accession Number of Target Protein:** Q8TDV5

**Published Application(s):** Blocking, ELISA, IF

**Published Species Reactivity:** Dog, Rat, Human, Mouse

**Immunogen:** Human GIPr.

**Specificity:** The original has a Ki value of 7 nM and a Kd value of 6.8 nM for human GIPr.

**Application Notes:** This antibody binds to GIPr, a GPCR expressed on pancreatic beta-cells, where activation leads to the release of insulin. Endogenous ligands for the receptor include oleyethanolamide and lysophosphatidylcholine. The antibody acts as a competitive antagonist. In rat islets, the antibody inhibits GIP-induced secretion of insulin by up to 81%.

**Antibody First Published in:** Ravn et al. Structural and pharmacological characterization of novel potent and selective monoclonal antibody antagonists of glucose-dependent insulinotropic polypeptide receptor. Journal of Biological Chemistry 2013; 288(27):19760-19772 [PMID:23689510](#)

**Note on publication:** Describes the generation of a monoclonal antibody against GIP and subsequent crystallisation as well as inhibition studies.

### Product Form

**Size:** 1 mg Purified antibody in bulk size.

**Purification:** Protein A affinity purified

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without

added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg /ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
