CDC6 & MCM6 Protein Protein Interaction Antibody Pair

Catalog # : DI0399

規格 : [1 Set]

List All

Specification

Product Description: This protein protein interaction antibody pair set comes with two antibodies to detect the protein-protein interaction, one against the CDC6 protein, and the other against the MCM6 protein for use in *in situ* Proximity Ligation Assay. See Publication Reference below.

Reactivity: Human

Quality Control Testing: Protein protein interaction immunofluorescence result.

Representative image of Proximity Ligation Analysis of protein-protein interactions between CDC6 and MCM6. HeLa cells were stained with anti-CDC6 rabbit purified polyclonal antibody 1:1200 and anti-MCM6 mouse purified polyclonal antibody 1:50. Each red dot represents the detection of protein-protein interaction complex. The images were analyzed using an optimized freeware ([BlobFinder](#)) download from The Centre for Image Analysis at Uppsala University.

Supplied Product: Antibody pair set content:
 1. CDC6 rabbit purified polyclonal antibody (20 ug)
 2. MCM6 mouse purified polyclonal antibody (40 ug)
 *Reagents are sufficient for at least 30-50 assays using recommended protocols.

Storage Instruction: Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -

Application Image

In situ Proximity Ligation Assay (Cell)

Applications

In situ Proximity Ligation Assay (Cell)

Representative image of Proximity Ligation Assay of protein-protein interactions between CDC6 and MCM6. Mahlavu cells were stained with anti-CDC6 rabbit purified polyclonal antibody 1:1200 and anti-MCM6 mouse purified polyclonal antibody 1:50. Each red dot represents the detection of protein-protein interaction complex, and nuclei were counterstained with DAPI (blue).

[CDC6](#) [MCM6](#)

Gene Information

Entrez GeneID: [990](#)

Gene Name: CDC6

Gene Alias: CDC18L,HsCDC18,HsCDC6

Gene Description: cell division cycle 6 homolog (S. cerevisiae)

Omim ID: [602627](#)

Gene Ontology: [Hyperlink](#)

Gene Summary: The protein encoded by this gene is highly similar to *Saccharomyces cerevisiae* Cdc6, a protein essential for the initiation of DNA replication. This protein functions as a regulator at the early steps of DNA replication. It localizes in cell nucleus during cell cycle G1, but translocates to the cytoplasm at the start of S phase. The subcellular translocation of this protein during cell cycle is regulated through its phosphorylation by Cdks. Transcription of this protein was reported to be regulated in response to mitogenic signals through transcriptional control mechanism involving E2F proteins. [provided by RefSeq]

Other Designations: CDC18 (cell division cycle 18, *S.pombe*, homolog)-like,CDC6 cell division cycle 6 homolog,CDC6-related protein,cell division cycle 6 protein

Gene Information

Entrez GeneID: [4175](#)

Gene Name: MCM6

Gene Alias: MCG40308,Mis5,P105MCM

Gene Description: minichromosome maintenance complex component 6

Omim ID: [223100](#), [601806](#)

Gene Ontology: [Hyperlink](#)

Gene Summary: The protein encoded by this gene is one of the highly conserved minichromosome maintenance proteins (MCM) that are essential for the initiation of eukaryotic genome replication. The hexameric protein complex formed by the MCM proteins is a key component of the pre-replication complex (pre_RC) and may be involved in the formation of replication forks and in the recruitment of other DNA replication related proteins. The MCM complex consisting of this protein and MCM2, 4 and 7 proteins possesses DNA helicase activity, and may act as a DNA unwinding enzyme. The phosphorylation of the complex by CDC2 kinase reduces the helicase activity, suggesting a role in the regulation of DNA replication. [provided by RefSeq]

Other Designations: DNA replication licensing factor MCM6,MCM6 minichromosome maintenance deficient 6 (MIS5 homolog, *S. pombe*),MIS5 homolog,minichromosome maintenance deficient (mis5, *S. pombe*) 6,minichromosome maintenance deficient 6 homolog

Interactome
