## Datasheet

### FOSL2 (Human) IP-WB Antibody Pair

**Catalog Number:** H00002355-PW2

**Regulatory Status:** For research use only (RUO)

**Product Description:** This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.

**Reactivity:** Human

**Applications:** IP-WB

(See our web site product page for detailed applications information)

**Protocols:** See our web site at

<http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

**Supplied Product:** Antibody pair set content:

1. Antibody pair for IP: rabbit polyclonal anti-FOSL2 (300 ul)
2. Antibody pair for WB: mouse purified polyclonal anti-FOSL2 (50 ug)

**Storage Instruction:** Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.

**Entrez GeneID:** 2355

**Gene Symbol:** FOSL2

**Gene Alias:** FLJ23306, FRA2

**Gene Summary:** The Fos gene family consists of 4 members: FOS, FOSB, FOSL1, and FOSL2. These genes encode leucine zipper proteins that can dimerize with proteins of the JUN family, thereby forming the transcription factor complex AP-1. As such, the FOS proteins have been implicated as regulators of cell proliferation, differentiation, and transformation. [provided by RefSeq]
