TRIM16 (Human) Matched Antibody Pair

Catalog # : H00010626-AP21

規格 : [1 Set]

[List All](#)

Specification

Product Description: This antibody pair set comes with matched antibody pair to detect and quantify protein level of human TRIM16.

Reactivity: Human

Quality Control Testing: Standard curve using recombinant protein (H00010626-P01) as an analyte.

Sandwich ELISA detection sensitivity ranging from 0.3 ng/ml to 100 ng/ml.

Supplied Product: Antibody pair set content:
 1. Capture antibody: rabbit MaxPabR affinity purified polyclonal anti-TRIM16 (100 ug)
 2. Detection antibody: mouse polyclonal anti-TRIM16 (40 ul)
 *Reagents are sufficient for at least 3-5 x 96 well plates using recommended protocols.

Storage Instruction: Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.

Gene Information

Entrez GeneID: [10626](#)

Gene Name: TRIM16

Gene Alias: EBBP

Gene Description: tripartite motif-containing 16

Omim ID: [609505](#)

Gene Ontology: [Hyperlink](#)

Gene Summary: This gene was identified as an estrogen and anti-estrogen regulated gene in epithelial cells stably expressing estrogen receptor. The protein encoded by this gene contains two B box domains and a coiled-coiled region that are characteristic of the B box zinc finger protein family. The proteins of this family have been reported to be involved in a variety of biological processes including cell growth, differentiation and pathogenesis. Expression of this gene was detected in most tissues. Its function, however, has not yet been determined. [provided by RefSeq]

Other Designations: estrogen-responsive B box protein
