Datasheet

NPTXR polyclonal antibody

Catalog Number: PAB20030

Regulatory Status: For research use only (RUO)

Product Description: Rabbit polyclonal antibody raised against recombinant NPTXR.

Immunogen: Recombinant protein corresponding to amino acids of human NPTXR.

Sequence:
HHICIAWTTRDGLWSAYQDGELQGSGENLAAWHPIKP HGILILGQEQDTLGGRFDATQAFVGDIAQFNLWDHALT PAQVLGIANCTAPLLGNVLPWEDKLVEAFGGATKAAF DVC

Host: Rabbit

Reactivity: Human

Applications: IHC-P
(See our web site product page for detailed applications information)

Protocols: See our web site at http://www.abnova.com/support/protocols.asp or product page for detailed protocols

Form: Liquid

Purification: Antigen affinity purification

Isotype: IgG

Recommend Usage: Immunohistochemistry (1:50-1:200)
The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS, pH 7.2 (40% glycerol, 0.02% sodium azide)

Storage Instruction: Store at 4°C. For long term storage store at -20°C.
Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 23467

Gene Symbol: NPTXR

Gene Alias: NPR

Gene Summary: This gene encodes a protein similar to the rat neuronal pentraxin receptor. The rat pentraxin receptor is an integral membrane protein that is thought to mediate neuronal uptake of the snake venom toxin, taipoxin, and its transport into the synapses. Studies in rat indicate that translation of this mRNA initiates at a non-AUG (CUG) codon. This may also be true for mouse and human, based on strong sequence conservation amongst these species. [provided by RefSeq]
