Bovine Intestine Genomic DNA

Product Name: Bovine Intestine Genomic DNA

Catalog Number: BG-306

Amount: 100µg (1mg/ml)

Concentration: 1mg/ml in TE buffer

Shipping Condition: Blue ice

Storage Condition: -20°C

Shelf Life: One year from the date of receipt under proper storage condition

Description:

Genomic DNA was extracted from normal bovine intestine tissue (individual animal) using solution-based method. This DNA is suitable for a variety of applications including genomic library construction, amplification, digestion with restriction endonucleases, and membrane hybridizations (Southern and dot/slot blots).

Quality Control Test:

1. Purified genomic DNA was found to have a molecular weight greater than 50kb as determined by Et-Br stained agarose gel.
2. Purity was determined by spectrophotometry and the ratio of A_{260}/A_{280} is >1.80 .
3. DNA is completely digestible with EcoR1 or Hind III at 37°C.

Note: Do not vortex, mix by gentle pipetting.

Intended use of the products: All products sold by AMSBIO are intended for research use only and must not be used for medical diagnostic or drug purposes. AMSBIO products may not resell, modified for resale or used to manufacture commercial products without written approval from AMSBIO.

Limited product warranty: AMSBIO has a total quality assurance policy. If any product does not meet the specification stated in the product data sheet will be replaced at no charge. This warranty limits AMSBIO liability to the replacement of the product only. No other warranties of any kind, express or implied, including without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by AMSBIO. AMSBIO shall not be liable for any incidental, indirect, special or consequential damages, even if it is aware of the possibility of such damages.
