**Cat#: HF-414**

**Description:** Normal Human Breast Frozen Sections

Normal Human Breast Frozen Sections are made of freshly harvested tissues, snapped frozen in OCT blocks, sectioned at a thickness of 7-10 microns and mounted on positively charged slides (1 section per slide).

**Quality Control:** Tissue sections are H&E stained and examined by histologists with 25 years of experience to be sure of excellent morphology and high quality.

**Applications:** Frozen tissue sections are prepared in RNase-, DNase-, and protease-free environment and are ideal for immunohistochemistry and in situ hybridization.

**Packing/shipping:** Frozen sections are shipped in tightly closed slide boxes or slide mailers on dry ice and are good for one year if properly stored.

## Note:

*There is no absolute assurance that products derived from human biological materials will not transmit infectious diseases. Employ appropriate universal precautions when using human derived materials. Useful information for handling human tissues is cited in this paper:*

*Grizzle W.E. and Polt S.S. (1998) Guidelines to avoid personnel contamination by infective agents in research laboratories that use human tissues. J. Tissue Culture Methods. 11:191-199.*

**Intended use of the products:** All products sold by AMSBIO are intended for research use only and must not be used for medical diagnostic or drug purposes. AMSBIO products may not be resold, modified for resale or used to manufacture commercial products without written approval from AMSBIO.  
**Limited product warranty:** AMSBIO has a total quality assurance policy. If any product does not meet the specification stated in the product data sheet, it will be replaced at no charge. This warranty limits AMSBIO's liability to the replacement of the product only. No other warranties of any kind, express or implied, including without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by AMSBIO. AMSBIO shall not be liable for any incidental, indirect, special or consequential damages, even if it is aware of the possibility of such damages.
