Data Sheet

Ready-to-Use Mouse BALB Thyroid Frozen Tissue Sections

Catalog #: MF-503-BLC

Quantity: 10 slides

Storage Conditions: Keep at -20°C for short-term storage (up to one week) and at -70°C for long-term storage in a tightly closed box or sealed bag. Sections are good for up to 1 year of the date of purchase if stored properly.

Applications: Mouse frozen tissue sections are ideal for:

- Cellular localization of the protein of interest in mouse tissues by immunohistochemistry.
- Cellular localization of the mRNA of interest in mouse tissues by *in situ* hybridization or *in situ* PCR using both radioactive- and non-radioactive-labeled probes.

Description: Tissues are freshly harvested from BALBC mouse and snapped frozen in O.C.T. freezing medium. Frozen tissues are cut at a thickness of 10 microns and mounted on positively charged slides. Each slide contains 2 sections of frozen tissue. All tissue preparation steps from harvesting to embedding in OCT are done in RNase-, DNase-, and protease-free conditions.

Shipping: Slides are shipped for O/N delivery on dry ice in a slide mailer or slide box.

Prior to use: Remove slide box/slide mailer from the freezer (don't open) and warm-up to room temperature for at least 30 minutes. This step is necessary for prevention of water condensation on the slides. After opening the slide box or slide mailer, it is also recommended to leave slides at room temperature for an additional 10-15 minutes. Restore unused slides in the freezer as described above.

Tissues are not yet fixed and need to be fixed in one of the following fixatives depending on your applications: ice-cold acetone, ethanol, 4%paraformaldehyde, 10% buffered neutral formalin, or any other fixatives recommended for frozen tissue sections.

Intended use of the products: All products sold by AMSBIO are intended for research use only and must not be used for medical diagnostic or drug purposes. AMSBIO products may not resell, modified for resale or used to manufacture commercial products without written approval from AMSBIO.
Limited product warranty: AMSBIO has a total quality assurance policy. If any product does not meet the specification stated in the product data sheet will be replaced at no charge. This warranty limits AMSBIO liability to the replacement of the product only. No other warranties of any kind, express or implied, including without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by AMSBIO. AMSBIO shall not liable for any incidental, indirect, special or consequential damages, even if it is aware of the possibility of such damages.
