Certificate of Analysis

Product Name: Wister Rat Brain Caudal Cerebellum Frozen Sections (Region-14)

Catalog Number: RF-201-14-WS

Shipping Condition: On dry ice

Storage Condition: -80°C

Shelf Life: One year from the date of receipt under proper storage condition

Description:

Tissues were freshly harvested from Wister rat, frozen in OCT without any fixative, sectioned at a thickness of 7microns and mounted on positively charged slides. Sections should be fixed with any fixative before use.

All processing steps of tissue sectioning were done under RNase- and protease-free environment, tissue sections are ideal for *in situ* hybridization and immunohistochemistry.

Quality Control Test: Slides were stained with H&E staining, just to be sure of good tissue morphology.

Products are **FOR IN VITRO LABORATORY USE ONLY** and **not intended for human or animal diagnostic or therapeutic uses.**
