TTK Antibody

Rabbit Polyclonal

Antigen Affinity Purified

Protein ID P33981

Catalog No. A300-296A-T

GeneID 7272

Lot No. A300-296A-T-4

APPLICATIONS	IP
SPECIES REACTIVITY	Human
AMOUNT	10 µl
CONCENTRATION	1000 µg/ml
STORAGE/SHELF LIFE	2 – 8°C / 1 year from date of receipt
PHYSICAL STATE	Liquid
BUFFER	Tris-citrate/phosphate buffer, pH 7 to 8 containing 0.09% Sodium Azide
ISOTYPE	IgG
ORIGIN	USA
PRODUCTION PROCEDURES	Antibody was affinity purified using an epitope specific to TTK immobilized on solid support. The epitope recognized by A300-296A-T maps to a region between residue 800 and c-terminus (residue 841) of human TTK using the numbering given Swiss-Prot entry P33981 (GeneID 7272).

Immunoglobulin concentration was determined by extinction coefficient: absorbance at 280 nm of 1.4 equals 1.0 mg of IgG.

APPLICATIONS Centrifuge tube to remove product from lid. Optimal working dilutions should be determined experimentally by the investigator. Prepare working dilution immediately before use.

Immunoprecipitation 2 – 10 µg/mg lysate

This document certifies that this product has met all of the quality control standards defined by Bethyl Laboratories, Inc.
Michael Spencer, PhD Date: June 6, 2022

Detection of human TTK by western blot of immunoprecipitates. *Samples:* Whole cell lysate (1.0 mg per IP reaction; 20% of IP loaded) from HEK293T cells prepared using NETN lysis buffer. *Antibodies:* Affinity purified Rabbit anti-TTK antibody A300-296A (lot A300-296A-4) used for IP at 6 µg per reaction. TTK was also immunoprecipitated by rabbit anti-TTK antibody BL1544. For blotting immunoprecipitated TTK, A300-296A was used at 0.1 µg/ml. *Detection:* Chemiluminescence with an exposure time of 3 minutes.
