# Astrin/MAP126 Antibody

Rabbit Polyclonal

|                           |            |             |
|---------------------------|------------|-------------|
| Antigen Affinity Purified | Protein ID | NP_006452.3 |
| Catalog No. A301-512A-T   | GenelD     | 10615       |
| Lot No. A301-512A-T-1     |            |             |

|                              |                                                                                                         |
|------------------------------|---------------------------------------------------------------------------------------------------------|
| <b>APPLICATIONS</b>          | WB, IP                                                                                                  |
| <b>SPECIES REACTIVITY</b>    | Human                                                                                                   |
| <b>AMOUNT</b>                | 10 µl                                                                                                   |
| <b>CONCENTRATION</b>         | 200 µg/ml                                                                                               |
| <b>STORAGE/SHELF LIFE</b>    | 2 – 8°C / 1 year from date of receipt                                                                   |
| <b>PHYSICAL STATE</b>        | Liquid                                                                                                  |
| <b>BUFFER</b>                | Tris-buffered Saline containing 0.1% BSA and 0.09% Sodium Azide                                         |
| <b>ISOTYPE</b>               | IgG                                                                                                     |
| <b>ORIGIN</b>                | USA                                                                                                     |
| <b>PRODUCTION PROCEDURES</b> | Antibody was affinity purified using an epitope specific to Astrin/MAP126 immobilized on solid support. |

The epitope recognized by A301-512A-T maps to a region between residue 875 and 925 of human astrin (mitotic spindle associated protein p126) using the numbering given in entry NP\_006452.3 (GenelD 10615).

**APPLICATIONS** Centrifuge tube to remove product from lid. Optimal working dilutions should be determined experimentally by the investigator. Prepare working dilution immediately before use.

Western Blot 1:2,000 – 1:10,000

Immunoprecipitation 2 – 5 µg/mg lysate

This document certifies that this product has met all of the quality control standards defined by Bethyl Laboratories, Inc.  
Michael Spencer, PhD Date: June 6, 2022

**Detection of human Astrin/MAP126 by western blot and immunoprecipitation.** *Samples:* Whole cell lysate (5, 15 and 50 µg for WB; 1 mg for IP, 20% of IP loaded) from HeLa cells. *Antibodies:* Affinity purified rabbit anti-Astrin/MAP126 antibody A301-512A used for WB at 0.04 µg/ml (A) and 0.1 µg/ml (B) and used for IP at 3 µg/mg lysate. Astrin/MAP126 was also immunoprecipitated by rabbit anti-Astrin/MAP126 antibodies A301-511A and BL5929, which recognize upstream epitopes. *Detection:* Chemiluminescence with exposure times of 30 seconds (A and B).
