# CPSF30 Antibody

Rabbit Polyclonal

|                           |            |             |
|---------------------------|------------|-------------|
| Antigen Affinity Purified | Protein ID | NP_006684.1 |
| Catalog No. A301-585A-T   | GeneID     | 10898       |
| Lot No. A301-585A-T-1     |            |             |

|                              |                                                                                                                    |
|------------------------------|--------------------------------------------------------------------------------------------------------------------|
| <b>APPLICATIONS</b>          | WB, IP                                                                                                             |
| <b>SPECIES REACTIVITY</b>    | Human, Mouse                                                                                                       |
| <b>PRESUMED REACTIVITY</b>   | Based on 100% sequence identity, this antibody is predicted to react with Rat, X. laevis, X. tropicalis and Bovine |
| <b>AMOUNT</b>                | 10 µl                                                                                                              |
| <b>CONCENTRATION</b>         | 200 µg/ml                                                                                                          |
| <b>STORAGE/SHELF LIFE</b>    | 2 – 8°C / 1 year from date of receipt                                                                              |
| <b>PHYSICAL STATE</b>        | Liquid                                                                                                             |
| <b>BUFFER</b>                | Tris-buffered Saline containing 0.1% BSA and 0.09% Sodium Azide                                                    |
| <b>ISOTYPE</b>               | IgG                                                                                                                |
| <b>ORIGIN</b>                | USA                                                                                                                |
| <b>PRODUCTION PROCEDURES</b> | Antibody was affinity purified using an epitope specific to CPSF30 immobilized on solid support.                   |

The epitope recognized by A301-585A-T maps to a region between residue 245 and 269 of human cleavage and polyadenylation specific factor 4, 30kD subunit using the numbering given in entry NP\_006684.1 (GeneID 10898).

**APPLICATIONS** Centrifuge tube to remove product from lid. Optimal working dilutions should be determined experimentally by the investigator. Prepare working dilution immediately before use.

Western Blot 1:2,000 – 1:10,000

Immunoprecipitation 2 – 5 µg/mg lysate

This document certifies that this product has met all of the quality control standards defined by Bethyl Laboratories, Inc.  
Michael Spencer, PhD Date: June 6, 2022

**Detection of human and mouse CPSF30 by western blot (h&m) and immunoprecipitation (h).** *Samples:* Whole cell lysate from HeLa (5, 15 and 50  $\mu$ g for WB; 1 mg for IP, 20% of IP loaded), HEK293T (T; 50  $\mu$ g) and mouse NIH 3T3 (M; 50  $\mu$ g) cells. *Antibodies:* Affinity purified rabbit anti-CPSF30 antibody A301-585A used for WB at 0.04  $\mu$ g/ml (A) and 1  $\mu$ g/ml (B) and used for IP at 3  $\mu$ g/mg lysate. CPSF30 was also immunoprecipitated by rabbit anti-CPSF30 antibody A301-584A, which recognizes an upstream epitope. *Detection:* Chemiluminescence with exposure times of 3 minutes (A) and 10 seconds (B).
