## PRODUCT AND SAFETY DATA SHEET

**PRODUCT NAME:** DAA (1,2-Diaminoanthraquinone)**CATALOG #:** 00300**MOLECULAR INFORMATION:** C<sub>14</sub>H<sub>12</sub>N<sub>2</sub>O<sub>6</sub>S  
Mwt: 336.32**PROPERTIES:**

|                               |                         |
|-------------------------------|-------------------------|
| <b>Color &amp; Form</b>       | Brown Crystalline solid |
| <b>Purity</b>                 | ≥ 98% by TLC            |
| <b>Solubility</b>             | Soluble in DMSO         |
| <b>Absorption</b>             | N/A                     |
| <b>Extinction Coefficient</b> | N/A                     |

**STORAGE AND HANDLING:** Store desiccated at -20°C and protect from light.**APPLICATION:** DAA reacts with nitric oxide (NO) to form a red ( $\lambda_{em} > 580$  nm) fluorescent precipitate. DAA probe has been used to detect NO concentration in rat retina after injury to the optic nerve.Ref.: 1) *Neuroreport* 9, 405 (1998)**TOXICITY:** Unknown

|                   |                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>FIRST AID:</b> | Potentially harmful; avoid prolonged or repeated exposure. Avoid getting in eyes, on skin, or on clothing. Wash thoroughly after handling. If eye or skin contact occurs, wash affected areas with plenty of water for 15 minutes and seek medical advice. In case of inhaling or swallowing, move individual to fresh air and seek medical advice immediately. |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                                                                                                                                                                                                                       |
