PRODUCT INFORMATION

NU 7441

Item No. 14881

CAS Registry No.: 503468-95-9
Formal Name: 8-(4-dibenzothieryl)-2-(4-morpholinyl)-4H-1-benzopyran-4-one
Synonym: Ku-57788
MF: C₂₅H₁₉NO₃S
FW: 413.5
Purity: ≥98%
UV/Vis.: λ_{max}: 234, 288 nm
Supplied as: A crystalline solid
Storage: -20°C
Stability: ≥2 years

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.

Laboratory Procedures

NU 7441 is supplied as a crystalline solid. A stock solution may be made by dissolving the NU 7441 in the solvent of choice. NU 7441 is soluble in organic solvents such as DMSO and dimethyl formamide (DMF), which should be purged with an inert gas. The solubility of NU 7441 in these solvents is approximately 0.12 and 1 mg/ml, respectively.

NU 7441 is sparingly soluble in aqueous buffers. For maximum solubility in aqueous buffers, NU 7441 should first be dissolved in DMF and then diluted with the aqueous buffer of choice. NU 7441 has a solubility of approximately 0.2 mg/ml in a 1:4 solution of DMF:PBS (pH 7.2) using this method. We do not recommend storing the aqueous solution for more than one day.

Description

DNA-dependent protein kinase (DNA-PK) catalyzes nonhomologous end-joining, which is required to repair lethal DNA double-strand breaks. Because cells that are defective in DNA double-strand break repair are highly sensitive to ionizing radiation and topoisomerase II poisons, modulating DNA-PK is one strategy to defer cancer cell resistance to radiation or chemotherapeutic treatments.¹ NU 7441 is a selective DNA-PK inhibitor with an IC₅₀ value of 14 nM.² It inhibits other members of the PI3K-related kinase family, including mTOR, PI3K, ataxia telangiectasia mutated (ATM), and ataxia telangiectasia and Rad3 related (ATR) with IC₅₀ values of 1.7, 5, >100, and >100 μM, respectively.² NU 7441 has been shown to increase the cytotoxicity of ionizing radiation and etoposide (Item No. 12092) in human colon cancer cell lines *in vitro* and to potentiate the effects of etoposide in mice bearing human colon cancer xenograft tumors *in vivo*.³

WARNING

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the [complete](#) Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
