PRODUCT INFORMATION

Zanamivir

Item No. 15123

CAS Registry No.: 139110-80-8
Formal Name: 5-(acetilamino)-4-
[(aminoiminomethyl)amino]-2,6-
anhydro-3,4,5-trideoxy-D-glycero-
D-galacto-non-2-enonic acid
Synonyms: GG 167, GR 121167X
MF: $C_{12}H_{20}N_4O_7$
FW: 332.3
Purity: $\geq 98\%$
UV/Vis.: λ_{max} : 231 nm
Supplied as: A crystalline solid
Storage: -20°C
Stability: ≥ 4 years

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.

Laboratory Procedures

Zanamivir is supplied as a crystalline solid. A stock solution may be made by dissolving the zanamivir in the solvent of choice, which should be purged with an inert gas. Zanamivir is soluble in the organic solvent DMSO at a concentration of approximately 0.13 mg/ml.

Further dilutions of the stock solution into aqueous buffers or isotonic saline should be made prior to performing biological experiments. Ensure that the residual amount of organic solvent is insignificant, since organic solvents may have physiological effects at low concentrations. Organic solvent-free aqueous solutions of zanamivir can be prepared by directly dissolving the crystalline solid in aqueous buffers. The solubility of zanamivir in PBS (pH 7.2) is approximately 5 mg/ml. We do not recommend storing the aqueous solution for more than one day.

Description

Zanamivir is an inhibitor of influenza neuraminidase.¹ It inhibits neuraminidase activity in clinical isolates of influenza A subtypes H1N1 and H3N2 and influenza B (geometric mean IC_{50} s = 0.73, 1.64, and 11.21 nM, respectively). Zanamivir inhibits replication of influenza A and B in isolated human respiratory epithelial cells (EC_{90} s = <0.01 mg/L and 0.25-0.54 mg/L, respectively).² It reduces lung viral titers in mice infected with influenza A or B when administered intranasally at a dose of 0.4 mg/kg. Formulations containing zanamivir have been used in the prevention and treatment of influenza infection.

WARNING

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
