PRODUCT INFORMATION

4-Aminopyridine

Item No. 18511

CAS Registry No.: 504-24-5
Formal Name: 4-pyridinamine
Synonyms: 4-AP, BRL 34915, Dalfampridine, Fampridine, NSC 15041
MF: $C_5H_6N_2$
FW: 94.1
Purity: $\geq 95\%$
Stability: ≥ 2 years at -20°C
Supplied as: A crystalline solid
UV/Vis.: λ_{max} : 245 nm

Laboratory Procedures

For long term storage, we suggest that 4-aminopyridine (4-AP) be stored as supplied at -20°C . It should be stable for at least two years.

4-AP is supplied as a crystalline solid. A stock solution may be made by dissolving the 4-AP in the solvent of choice. 4-AP is soluble in organic solvents such as ethanol, DMSO, and dimethyl formamide, which should be purged with an inert gas. The solubility of 4-AP in these solvents is approximately 30 mg/ml.

Further dilutions of the stock solution into aqueous buffers or isotonic saline should be made prior to performing biological experiments. Ensure that the residual amount of organic solvent is insignificant, since organic solvents may have physiological effects at low concentrations. Organic solvent-free aqueous solutions of 4-AP can be prepared by directly dissolving the crystalline solid in aqueous buffers. The solubility of 4-AP in PBS, pH 7.2, is approximately 30 mg/ml. We do not recommend storing the aqueous solution for more than one day.

Description

4-AP is a non-selective blocker of voltage-dependent K^+ -channels (K_v proteins in the KCN gene family). It has greatest potency at K_v1 (KCNA) and K_v3 (KCNC) family members ($IC_{50}s = 290, 590, 195, 13, 29$, and $100 \mu\text{M}$ for subunits 1.1, 1.2, 1.3, 1.4, 3.1, and 3.2, respectively).¹ 4-AP also blocks K_v2 and K_v4 subunits at millimolar concentrations.¹ When administered orally, 4-AP has benefits against multiple sclerosis, while injection into the brain produces epileptiform activity and can be used to study seizures.²⁻⁴

WARNING

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
