PRODUCT INFORMATION

Pyridoxine-d₃ (hydrochloride)

Item No. 28149

CAS Registry No.: 1189921-12-7
Formal Name: 5-hydroxy-6-methyl-d₃-3,4-pyridinedimethanol, monohydrochloride
MF: C₈H₈D₃NO₃ • HCl
FW: 208.7
Chemical Purity: ≥90% (Pyridoxine)
Deuterium
Incorporation: ≥99% deuterated forms (d₁-d₃); ≤1% d₀
Supplied as: A solid
Storage: -20°C
Stability: ≥2 years

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.

Laboratory Procedures

Pyridoxine-d₃ (hydrochloride) is intended for use as an internal standard for the quantification of pyridoxine (Item No. 20706) by GC- or LC-MS. The accuracy of the sample weight in this vial is between 5% over and 2% under the amount shown on the vial. If better precision is required, the deuterated standard should be quantitated against a more precisely weighed unlabeled standard by constructing a standard curve of peak intensity ratios (deuterated versus unlabeled).

Description

Pyridoxine is a 4-methanol form of vitamin B₆ that is converted to pyridoxal 5'-phosphate (Item No. 20352), the active form of vitamin B₆ and an important cofactor for metabolism.¹ Pyridoxine has been used in cell culture media as a precursor to pyridoxal 5'-phosphate.²

WARNING

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the [complete](#) Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
