PRODUCT INFORMATION

Ganglioside Mixture

Item No. 29362

Supplied as: A solution in chloroform:methanol:water (2:1:0.1)

Storage: -20°C

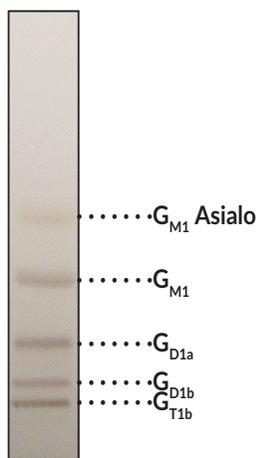

Stability: ≥1 year

Concentration: 0.5 mg/ml

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.

Description and Data

Gangliosides are acidic membrane sphingolipids that contain sialic acid and oligosaccharide moieties.¹ They have roles in cell proliferation, differentiation, adhesion, neuronal plasticity, intra- and intercellular signaling, and neurogenesis.¹⁻³ They accumulate in a variety of lysosomal storage disorders including Sandhoff, Tay-Sachs, and Niemann-pick diseases.^{4,5} Ganglioside Mixture contains the gangliosides asialo G_{M1} , G_{M1} , G_{D1a} , G_{D1b} , and G_{T1b} and is intended for use as a reference standard for the detection of these gangliosides in various samples by TLC, LC-, or GC-MS.

WARNING

THIS PRODUCT IS FOR RESEARCH ONLY - NOT FOR HUMAN OR VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

SAFETY DATA

This material should be considered hazardous until further information becomes available. Do not ingest, inhale, get in eyes, on skin, or on clothing. Wash thoroughly after handling. Before use, the user must review the complete Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Buyer agrees to purchase the material subject to Cayman's Terms and Conditions. Complete Terms and Conditions including Warranty and Limitation of Liability information can be found on our website.
