Recombinant Human Holo Lactoferrin

CLPRO592
CLPRO592-2
CLPRO592-3

Lot:

Introduction: Lactoferrin is a glycoprotein that belongs to the transferrin family of iron binding proteins. It is found in human breast milk as well as most epithelial surface secretions including tears, nasogastric, saliva, and bronchial. Lactoferrin binds 2 molecules of iron with very high affinity. Lactoferrin inhibits bacterial growth by withholding iron, its N-terminal region is an antimicrobial peptide. Lactotransferrin acts synergistically with lysozyme to potentiate the activity of both proteins. The multifunctional protein lactoferrin has many physiological possible roles. It is often referred to as an innate defense protein and frequently serves as the first line of defense in protection against pathogens. It has been shown to have the ability to bind iron, it is a natural anti-bacterial, anti-fungal and anti-viral, it is an antioxidant and it also has immunomodulatory properties. It has many beneficial properties, which make it a good candidate for a number of product applications. Considerable research is currently going on to explain the various suggested biological functions of lactoferrin.

Description: Recombinant Human Holo Lactoferrin produced in plant is a glycosylated polypeptide chain having an approximate molecular mass of 77-80 kDa. The Human Holo Lactotransferrin is purified by proprietary chromatographic techniques.

Synonyms: Lactotransferrin, LTF, LF, HLF2, GIG12, LTF Holo, Lactoferrin Holo, Talalactoferrin alfa.

Source: Rice Flour.

Presentation: 10 mg (**CLPRO592**), 100 mg (**CLPRO592-2**), or 1 g (**CLPRO592-3**), pink lyophilized powder. The Human Holo lactotransferrin was lyophilized from water and contains 1.4 mg iron/gram Lactoferrin.

Stability: Recombinant Holo Lactotransferrin although stable at room temperature for 5 days, should be stored desiccated below -18°C. **Please prevent freeze-thaw cycles.**

Purity:

Greater than 90.0% as determined by
(a) Analysis by RP-HPLC.
(b) Analysis by SDS-PAGE.

Laboratory Reagent For Research Use Only
