Please contact CEDARLANE® for lot specific information.

Purified Mouse Anti-Human Macrophage

CLSG36771

Lot:

Immunogen: BALB/C mice were injected with affinity purified monocyte membrane preparation.

Clone: MAC387

Isotype: IgG1

Format: This antibody is supplied as purified immunoglobulin fraction containing sodium azide as preservative.

Titer/Working Dilution: This antibody may be diluted to a titer of 1:25-1:75 in an ABC method. However, depending on the staining conditions employed, we suggest that final dilution should be determined by the user.

Staining Protocol: We suggest an incubation period of 30 minutes at room temperature. However, depending upon the fixation conditions and the staining system employed, optimal incubation should be determined by the user. Proteolytic treatment of paraffin tissue sections is recommended.

Specificity: This antibody is specific to human leukocyte antigen L1, also known as calprotectin, calgranulin and cystic fibrosis antigen. This antibody reacts with neutrophils, monocytes, macrophages and squamous mucosal epithelia.

Positive Control: Tonsil

Cellular Localization: Cytoplasmic
