Purified Rabbit anti-Human IgM Polyclonal Antibody

CLSG36952

Lot: F142

Immunogen:	IgM isolated from human sera of a patient.
Host:	Rabbit
Format:	1 ml of purified immunoglobulin fraction of rabbit antiserum against human IgM containing sodium azide as preservative.
Titer/Working Dilution:	This antibody may be diluted to a titer of 1:150-1:250 in an ABC method. However, depending on the staining conditions employed, we suggest that final dilution should be determined by the user.
Staining Protocol:	We suggest an incubation period of 30 minutes at room temperature. However, depending upon the fixation conditions and the staining system employed, optimal incubation conditions should be determined by the user. <u>Suitable for formalin/paraffin tissues.</u>
Specificity:	This antibody reacts with the mu-chains of human IgM. Nonspecific antibodies have been removed by solid-phase absorption.
Positive Control:	Tonsil
Cellular Localization:	Cytoplasmic
Storage:	Store the antibody at 4-8°C. Do not use it beyond the expiration date stated on the label.

For Research Use Only. Not for Diagnostic or Therapeutic Work.

JV 05/23/06
