Mouse Monoclonal Antibody to Granzyme B

CLX441AP

Size: 0.1 mg

Clone: CLB-GB11

Isotype: Mouse IgG1

Immunogen: Human NK cell line YT-INDY-derived granzyme B.

Species Reactivity: Human, Non-Human Primates

Application: Flow Cytometry

Purity: > 95% (by SDS-PAGE)

Purification: Purified by protein-A affinity chromatography.

Concentration: 1 mg/ml

Storage Buffer: Tris buffered saline (TBS) with 15 mM sodium azide, approx. pH 8.0.

Storage / Stability: Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on vial label.

Background: Granzyme B is a serine protease that is expressed in cytoplasmic granules of cytotoxic T lymphocytes and NK cells. Vectorial secretion of perforin and granzymes is responsible for their granule-mediated cytotoxicity. Granzyme B plays a pivotal role in the induction of apoptosis in the target cells by activation of caspases. Moreover, granzyme B was reported to cleave directly alpha-tubulin, leading to perturbation of microtubule networks during the induced cell death.
