# CD19 Recombinant Monoclonal Antibody

|                            |                                                                                  |
|----------------------------|----------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-RA004888MA2HU                                                                |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                    |
| <b>Uniprot No.</b>         | P15391                                                                           |
| <b>Immunogen</b>           | Recombinant Human CD19 protein                                                   |
| <b>Species Reactivity</b>  | Human                                                                            |
| <b>Tested Applications</b> | ELISA, IF; Recommended dilution: IF:1:50-1:200                                   |
| <b>Form</b>                | Liquid                                                                           |
| <b>Conjugate</b>           | Non-conjugated                                                                   |
| <b>Storage Buffer</b>      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4 |
| <b>Purification Method</b> | Affinity-chromatography                                                          |
| <b>Isotype</b>             | mFc2a                                                                            |
| <b>Clonality</b>           | Monoclonal                                                                       |
| <b>Product Type</b>        | Recombinant Antibody                                                             |
| <b>Immunogen Species</b>   | Homo sapiens (Human)                                                             |
| <b>Research Area</b>       | Immunology;Stem cells                                                            |
| <b>Target Names</b>        | CD19                                                                             |
| <b>Clone No.</b>           | 12G9                                                                             |

## Image

Immunofluorescence staining of HeLa cell with CSB-RA004888MA2HU at 1:25, counter-stained with DAPI. The cells were fixed in 4% formaldehyde and blocked in 10% normal Goat Serum. The cells were then incubated with the antibody overnight at 4°C. The secondary antibody was FITC-conjugated AffiniPure Goat Anti-Human IgG(H+L).

## Usage

For Research Use Only. Not for use in diagnostic or therapeutic procedures.
