# Elab Fluor® Violet 450 Anti-Human CD196/CCR6 Antibody[G034E3]

Catalog No.E-AB-F1158QReactivityHumanStorageStore at 2~8°C, Avoid freeze / thaw cyclesApplicationsFCM

**Important Note:** Centrifuge before opening to ensure complete recovery of vial contents.

# **Antigen Information**

Alternate Names CKRL3, CMKBR6, GPR29, STRL22, GPRCY4

Uniprot ID P51684 Gene ID 1235

**Background** CCR6, also known as CD196/CCR6, is a chemokine receptor that is expressed on immature

dendritic cells, B lymphocytes, and memory T cells. CCR6 binds CCL20, although members of the  $\beta$  defensin family also bind CCR6 with a lower affinity. CCR6 positive cells, and its ligand CCL20, have been detected in numerous organs, especially the secondary lymphoid organ. CCL20 is selectively made by the follicle-associated epithelium (FAE) overlying Peyers Patches

(PPs) and isolated lymphoid follicles (ILFs). CCL20 contributes to the recruitment of

CCR6-expressing B cells to these structures. In humans, CCR6 can function to mediate arrest of T cells on dermal endothelial cells and is highly expressed on T cells resident in both normal and psoriatic skin. CCR6 and/or CCL20 have been implicated in the pathogenesis of rheumatoid arthritis and inflammatory bowel disease. Human T cells that are able to produce IL-17 express CCR6. It suggests that CCL20 and CCR6 have a role in inflammatory diseases by recruiting Th17

cells to target tissues.

#### **Product Details**

Form Liquid

Size 20Tests/100Tests/100Tests×2

Clone No. G034E3 Host Mouse

**Isotype** Mouse IgG2b,  $\kappa$ 

**Reactivity** Human **Application** FCM

Isotype ControlElab Fluor® Violet 450 Mouse IgG2b, κ Isotype Control[MPC-11] [Product E-AB-F09812Q]Storage BufferPhosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

**Shipping** Biological ice pack at 4 °C **Stability & Storage** Keep as concentrated solution.

Store at 2~8°C and protected from prolonged exposure to light.Do not freeze.

This product is guaranteed up to one year from purchase.

## **Fluorophore**

Conjugation: Elab Fluor® Violet 450

Elab Fluor<sup>®</sup> Violet 450 is designed to be excited by the violet laser (405 nm) and detected using an optical filter centered near 450 nm (e.g., a 450/45 nm bandpass filter).

## Recommended usage

Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5  $\mu$ L of antibody per test (million cells in 100  $\mu$ L staining volume or per 100  $\mu$ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.

#### **Product data**

Human peripheral blood lymphocytes are stained with APC Anti-Human CD19 Antibody and Elab Fluor<sup>®</sup> Violet 450 Anti-Human CD196/CCR6 Antibody (Left). Lymphocytes are stained with APC Anti-Human CD19 Antibody and Elab Fluor<sup>®</sup> Violet 450 Mouse IgG2b, κ Isotype Control (Right).
