## Sofosbuvir-d<sub>6</sub>

|                    |                                                                                 |       |          |
|--------------------|---------------------------------------------------------------------------------|-------|----------|
| Cat. No.:          | HY-15005S1                                                                      |       |          |
| CAS No.:           | 1868135-06-1                                                                    |       |          |
| Molecular Formula: | C <sub>22</sub> H <sub>23</sub> D <sub>6</sub> FN <sub>3</sub> O <sub>9</sub> P |       |          |
| Molecular Weight:  | 535.49                                                                          |       |          |
| Target:            | HCV                                                                             |       |          |
| Pathway:           | Anti-infection                                                                  |       |          |
| Storage:           | Powder                                                                          | -20°C | 3 years  |
|                    |                                                                                 | 4°C   | 2 years  |
|                    | In solvent                                                                      | -80°C | 6 months |
|                    |                                                                                 | -20°C | 1 month  |

### BIOLOGICAL ACTIVITY

#### Description

Sofosbuvir-d<sub>6</sub> is the deuterium labeled Sofosbuvir. Sofosbuvir (PSI-7977) is an active inhibitor of HCV RNA replication in the HCV replicon assay, demonstrates potent anti-hepatitis C virus (HCV) activity.

**Caution: Product has not been fully validated for medical applications. For research use only.**
