## N-Benzyl paroxetine-d<sub>6</sub>

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Cat. No.:          | HY-166872S                                                                                |
| CAS No.:           | 3047060-13-6                                                                              |
| Molecular Formula: | C <sub>26</sub> H <sub>20</sub> D <sub>6</sub> FNO <sub>3</sub>                           |
| Molecular Weight:  | 425.52                                                                                    |
| Target:            | Isotope-Labeled Compounds                                                                 |
| Pathway:           | Others                                                                                    |
| Storage:           | Please store the product under the recommended conditions in the Certificate of Analysis. |

### BIOLOGICAL ACTIVITY

#### Description

N-Benzyl paroxetine-d<sub>6</sub> is the deuterium labeled N-Benzyl paroxetine<sup>[1]</sup>.
