AD-mix- α

Cat. No.:	HY-24312		
CAS No.:	153130-59-7		
Target:	Biochemical Assay Reagents		
Pathway:	Others		
Storage:	Powder	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

AD-mix- α

SOLVENT & SOLUBILITY

In Vitro	H ₂ O : 25 mg/mL (ultrasonic and warming and heat to 60°C)
----------	---

BIOLOGICAL ACTIVITY

Description	AD-mix- α is a mixture of organic compounds, commonly used to distinguish and identify asymmetric carbon atoms in chiral compounds. It consists of compounds containing catalytically active metals and chiral ligands. AD-mix- α is widely used in various organic synthesis reactions, such as hydrogenation, addition, and carbonylation reactions, to increase yield and reduce the formation of side reaction products. Although it has no direct application in the medical field, it plays an important role in the pharmaceutical industry and chemical research.
In Vitro	AD-mix- α is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
