## NSP-DMAE-NHS

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Cat. No.:          | HY-D0892                                                                                  |
| CAS No.:           | 194357-64-7                                                                               |
| Molecular Formula: | C <sub>30</sub> H <sub>26</sub> N <sub>2</sub> O <sub>9</sub> S                           |
| Molecular Weight:  | 590.6                                                                                     |
| Target:            | Biochemical Assay Reagents                                                                |
| Pathway:           | Others                                                                                    |
| Storage:           | Please store the product under the recommended conditions in the Certificate of Analysis. |

## BIOLOGICAL ACTIVITY

### Description

NSP-DMAE-NHS is an acridinium ester chemiluminescence reagent containing N-sulfopropyl group. It is useful in the clinical diagnostics industry, especially in automated immunochemistry analyzers such as the ADVIA Centaur system from Siemens Healthcare Diagnostics.

**Caution: Product has not been fully validated for medical applications. For research use only.**
