Sulfo SMCC R-phycoerythrin

Cat. No.:	HY-D2396	
Target:	Fluorescent Dye	
Pathway:	Others	
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.	Sulfo SMCC R-phycoerythrin

BIOLOGICAL ACTIVITY

Description

Sulfo SMCC R-phycoerythrin is a conjugate composed of the protein crosslinker SMCC (HY-42360) and R-PE (R-Phycoerythrin) (HY-D0988) that can be used to label proteins to make them carry red fluorescence. Among them, SMCC is able to engage antigen-coupled spleen cells to induce antigen-specific immune responses^[1].
