

# SZABO SCANDIC

Part of Europa Biosite

## Produktinformation

Forschungsprodukte & Biochemikalien

Zellkultur & Verbrauchsmaterial

Diagnostik & molekulare Diagnostik

Laborgeräte & Service

Weitere Information auf den folgenden Seiten!  
See the following pages for more information!

### Lieferung & Zahlungsart

siehe unsere [Liefer- und Versandbedingungen](#)

### Zuschläge

- Mindermengenzuschlag
- Trockeneiszuschlag
- Gefahrgutzuschlag
- Expressversand

### SZABO-SCANDIC HandelsgmbH

Quellenstraße 110, A-1100 Wien

## Methyl 3-oxohexanoate

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Cat. No.:          | HY-W005176                                                                                |
| CAS No.:           | 30414-54-1                                                                                |
| Molecular Formula: | C <sub>7</sub> H <sub>12</sub> O <sub>3</sub>                                             |
| Molecular Weight:  | 144.17                                                                                    |
| Target:            | Biochemical Assay Reagents                                                                |
| Pathway:           | Others                                                                                    |
| Storage:           | Please store the product under the recommended conditions in the Certificate of Analysis. |

### BIOLOGICAL ACTIVITY

|             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description | Methyl 3-oxohexanoate (Methyl Butyrylacetate) is an organic compound commonly used in the manufacture of fragrances, drugs, and other chemicals. It can be used as a condensation reagent, a diazotization reagent and an addition reagent, and it plays a catalytic role in some organic synthesis reactions, and can also play a role in some drug synthesis. In addition, the compound is widely used in the food industry, for example in products such as juices, beer and confectionery. |
| In Vitro    | Methyl 3-oxohexanoate is a biochemical reagent that can be used as a biological material or organic compound for life science related research.<br>MCE has not independently confirmed the accuracy of these methods. They are for reference only.                                                                                                                                                                                                                                             |

**Caution: Product has not been fully validated for medical applications. For research use only.**
