## 7-APB hydrochloride

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Cat. No.:          | HY-W750822                                                                                |
| CAS No.:           | 286834-86-4                                                                               |
| Molecular Formula: | C <sub>11</sub> H <sub>14</sub> ClNO                                                      |
| Molecular Weight:  | 211.69                                                                                    |
| Target:            | Drug Metabolite                                                                           |
| Pathway:           | Metabolic Enzyme/Protease                                                                 |
| Storage:           | Please store the product under the recommended conditions in the Certificate of Analysis. |

### BIOLOGICAL ACTIVITY

#### Description

7-APB hydrochloride is a benzofuran. 7-APB hydrochloride is a metabolite of 7-MAPB.

**Caution: Product has not been fully validated for medical applications. For research use only.**
