Catalogue Number	PBMSKF8ACD25-MSXX
Product Name	Frozen human peripheral blood mononuclear cells (PBMC) from leukopak fraction in acid citrate dextrose (ACD) solution A - male donor
Size	25 million cells

Product Description

Frozen human peripheral blood mononuclear cells (PBMC) isolated via Ficoll density gradient separation from human leukopheresate collected in acid citrate dextrose, solution A (ACD-A). Leukopheresate comes from a healthy male donor aged between 18-66. Donors are screened and tested negative for HIV, Hepatitis B and C, HTLV I & II and Syphilis. PBMCs have >95% pre-freeze viability prior to freezing in CryoStor® CS10 cryopreservation medium at -80°C. This product contains >25 million PBMCs and is delivered in 1.6 ml cryovial (0.5ml volume) at a concentration of >50 million PBMCs/ml. The PBMCs have been batch-tested negative for bacteria and Mycoplasma by PCR.

These products are for use in Biomedical Research only. They are not to be used for any form of human treatment, or for any purpose that is prohibited by law, including any use for human reproductive cloning.

Product Temperature	Frozen (-80°C)
Sex	Male
Pooling	Single donor
Blood Group	Not specified
Sample Age	Stock (maximum age 36 months)

Important Information

This product is for Research Use Only and not for any diagnostic, therapeutic or human use.

The product originates from human tissue and may be contaminated with infectious agents. Whilst it has been tested with research grade tests, it should be handled with all appropriate biosafety precautions applicable to material of this type.

Donors give their consent for the use of their samples in biomedical research, (including commercial research) relating to the development and production of new medical treatments, medical services, medical tests, medical devices, biomedical research technologies, a wide range of research studies. Donor consent is given for DNA analysis and/or DNA extraction and/or any other form of genetic analysis and for animal research including xenografts.

It is your responsibility to ensure that you have necessary licensing and ethical approvals in place for the use and storage of any human tissue related material supplied by Research Donors Ltd.
