<b>Catalogue Number</b>	TCNF10-3P
<b>Product Name</b>	Frozen human CD3+ pan T cells - female donor
<b>Size</b>	10 million cells

**Product Description**

Frozen human CD3+ pan T cells isolated via negative immunomagnetic separation technique from human leukopheresate collected in acid citrate dextrose, solution A (ACD-A). Leukopheresate comes from a healthy female donor aged between 18-66. Donors are screened and tested negative for HIV, Hepatitis B and C, HTLV I & II and Syphilis. CD3+ pan T cells are cryopreserved in CryoStor® CS10 medium using a controlled rate freezing method. This product contains 10 million cells at a concentration of 10 million cells/mL with a post-thaw viability >90%. This product has been batch-tested negative for bacteria and Mycoplasma by PCR.

These products are for use in Biomedical Research only. They are not to be used for any form of human treatment, or for any purpose that is prohibited by law, including any use for human reproductive cloning.

<b>Product Temperature</b>	Frozen (stored -135°C and below, shipped on dry ice)
<b>Sex</b>	Female
<b>Pooling</b>	Single donor
<b>Blood Group</b>	Not specified
<b>Sample Age</b>	Stock (maximum age 36 months)

**Important Information**

This product is for Research Use Only and not for any diagnostic, therapeutic or human use.

The product originates from human tissue and may be contaminated with infectious agents. Whilst it has been tested with research grade tests, it should be handled with all appropriate biosafety precautions applicable to material of this type.

Donors give their consent for the use of their samples in biomedical research, (including commercial research) relating to the development and production of new medical treatments, medical services, medical tests, medical devices, biomedical research technologies, a wide range of research studies. Donor consent is given for DNA analysis and/or DNA extraction and/or any other form of genetic analysis and for animal research including xenografts.

It is your responsibility to ensure that you have necessary licensing and ethical approvals in place for the use and storage of any human tissue related material supplied by Research Donors Ltd.
