**Datasheet for 207-1150****Golden Syrian Hamster IgG Antibody Agarose****Overview**

<b>Description:</b>	Goat Anti-Golden Syrian Hamster IgG (H&L) Antibody Agarose Conjugated - 207-1150
<b>Item No.:</b>	207-1150
<b>Size:</b>	20 mg
<b>Reactivity:</b>	Golden Syrian Hamster
<b>Host Species:</b>	Goat

**Product Details**

<b>Background:</b>	Anti-Golden Syrian Hamster IgG Agarose Conjugate generated in goat detects hamster Immunoglobulin G. It is a protein complex composed of four peptide chains — two identical heavy chains and two identical light chains arranged in a Y-shape typical of antibody monomers. Each IgG has two antigen binding sites. Representing approximately 75% of serum immunoglobulins in humans, IgG is the most abundant antibody isotype found in the circulation. IgG molecules are synthesized and secreted by plasma B cells. Secondary Antibodies are available in a variety of formats and conjugate types. When choosing a secondary antibody product, consideration must be given to species and immunoglobulin specificity, conjugate type, fragment and chain specificity, level of cross-reactivity, and host-species source and fragment composition.
<b>Synonyms:</b>	Goat Anti Golden Syrian Hamster IgG Antibody Agarose Conjugate, Goat Anti-Golden Syrian Hamster IgG Agarose Conjugated Antibody
<b>Host Species:</b>	Goat
<b>Conjugate:</b>	Agarose
<b>Clonality:</b>	Polyclonal
<b>Format:</b>	IgG

**Target Details**

<b>Reactivity:</b>	Golden Syrian Hamster
<b>Purity/Specificity:</b>	This product is an IgG fraction antibody coupled to activated agarose. Sufficient antibody capacity is provided to bind a minimum of 5 mg of pure Hamster IgG.

## Application Details

<b>Application Note:</b>	Anti-Golden Syrian Hamster IgG Agarose Conjugate is useful for immunoprecipitation and other immunological assays.
<b>Assay Dilutions:</b>	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
<b>IP:</b>	User Optimized

## Formulation

<b>Physical State:</b>	Suspension of agarose beads
<b>Buffer:</b>	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
<b>Preservative:</b>	0.01% (w/v) Sodium Azide
<b>Stabilizer:</b>	None

## Shipping & Handling

<b>Shipping Condition:</b>	Wet Ice
<b>Storage Condition:</b>	Store vial at 4° C prior to opening. DO NOT FREEZE.
<b>Expiration:</b>	Expiration date is one (1) year from date of receipt.

## Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications.
