Datasheet for 605-305-002

Goat IgG (H&L) (Mouse) Antibody Alkaline Phosphatase Conjugated**Overview**

| | |
|----------------------|--|
| Description: | Mouse Anti-Goat IgG (H&L) Antibody Alkaline Phosphatase Conjugated - 605-305-002 |
| Item No.: | 605-305-002 |
| Size: | 1 mg |
| Applications: | Dot Blot, ELISA |
| Reactivity: | Goat |
| Host Species: | Mouse |

Product Details

| | |
|----------------------|---|
| Background: | Secondary Antibodies are available in a variety of formats and conjugate types. When choosing a secondary antibody product, consideration must be given to species and immunoglobulin specificity, conjugate type, fragment and chain specificity, level of cross-reactivity, and host-species source and fragment composition. |
| Synonyms: | Mouse anti-Goat IgG Antibody Alkaline Phosphatase Conjugation, Mouse anti-Goat IgG Alk Phos Conjugated Antibody |
| Host Species: | Mouse |
| Specificity: | IgG (H&L) |
| Conjugate: | Alkaline Phosphatase (AP) |
| Clonality: | Polyclonal |
| Format: | IgG |

Target Details

| | |
|--------------------|-------------------------|
| Reactivity: | Goat |
| Immunogen: | Goat IgG whole molecule |

| | |
|----------------------------|--|
| Purity/Specificity: | Goat IgG (H&L) Antibody Alkaline Phosphatase Conjugated was prepared from monospecific polyclonal ascites by immunoaffinity chromatography using Goat IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Alkaline Phosphatase (calf intestine), anti-Mouse Serum, Goat IgG and Goat Serum. No reaction was observed against Rabbit, Human and Mouse Serum Proteins. |
|----------------------------|--|

Application Details

| | |
|-----------------------------|---|
| Tested Applications: | Dot Blot, ELISA |
| Application Note: | Anti-Goat IgG Alkaline Phosphatase conjugate has been tested by ELISA and dot blot and is suitable for immunoblotting (western or dot blot), ELISA, immunoelectron microscopy and immunohistochemistry as well as other antibody-based enzymatic assays requiring lot-to-lot consistency. |
| Assay Dilutions: | All assays should be optimized by the user. Recommended dilutions (if any) may be listed below. |

Formulation

| | |
|------------------------|---|
| Physical State: | Liquid (sterile filtered) |
| Concentration: | 1 mg/ml by UV absorbance at 280 nm |
| Buffer: | 0.05 M Tris Chloride, 0.15M Sodium Chloride, 0.001M Magnesium Chloride, 0.0001M Zinc Chloride, 50% (v/v) Glycerol; pH 8.0 |
| Preservative: | 0.01% (w/v) Sodium Azide |
| Stabilizer: | 10 mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free |

Shipping & Handling

| | |
|----------------------------|--|
| Shipping Condition: | Wet Ice |
| Storage Condition: | Store vial at 4° C before opening. DO NOT FREEZE. This product is stable at 4° C as an undiluted liquid. Dilute only prior to immediate use. Freezing alkaline phosphatase conjugates will result in a substantial loss of enzymatic activity. |
| Expiration: | Expiration date is one (1) year from date of receipt. |

Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale. Suggested uses of our products are not recommendations to use our products in violation of any patent or as a license under any patent of Rockland Immunochemicals, Inc.
