Datasheet for D610-50**Rabbit Gamma Globulin Fraction****Overview**

Description:	Rabbit Gamma Globulin Fraction (BULK ORDER) - D610-50
Item No.:	D610-50
Size:	50 g
Applications:	SDS-PAGE, ELISA
Origin:	Rabbit

Product Details

Background:	Rabbit Gamma Globulin Fraction consists of the fraction of blood serum which contains whole antibodies as well as other non-albumin plasma proteins. Gamma globulins can be utilized therapeutically to temporarily boost an patient's immunity (such as after an immunosuppressive infection) or to increase the likelihood of kidney transplant acceptance. Gamma Globulin Fraction can be utilized in molecular biology experiments as a control reagent.
Synonyms:	Plasma Gamma Globulin, Serum Gamma Globulin, Globulin Fractions, Gammaglobulin, rabbit gamma fraction
Species of Origin:	Rabbit
Type:	Native Protein
Specific Activity:	1.22 g dry weight per gram of protein.

Target Details

Immunogen:	Not applicable
Purity/Specificity:	This product was prepared from normal Rabbit serum by a multi-step process which includes delipidation and salt fractionation followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in precipitin arcs against anti-Rabbit Serum corresponding to gamma globulins.

Application Details

Tested Applications:	SDS-PAGE
-----------------------------	----------

Suggested Applications:	ELISA (Based on references)
Application Note:	Rabbit Gamma Globulin Fraction has been tested by SDS-PAGE and can be utilized in Western Blotting, Immunohistochemistry and ELISA experiments.
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
ELISA:	User Optimized
IHC:	User Optimized
WB:	User Optimized

Formulation

Physical State:	Lyophilized
Concentration:	59.8 mg/ml by UV absorbance at 280 nm
Buffer:	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Preservative:	0.01% (w/v) Sodium Azide
Stabilizer:	None
Reconstitution Buffer:	Restore with deionized water (or equivalent)

Shipping & Handling

Shipping Condition:	Ambient
Storage Condition:	Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.
Expiration:	Expiration date is one (1) year from date of receipt.

Images

**SDS-PAGE**

SDS PAGE of Rabbit Gamma Globulin. Lane 1: Non-Reduced Rabbit Gamma Globulin. Lane 2: 5µL Opal Prestained Marker MB-210-0500. Lane 3: Reduced Rabbit Gamma Globulin. Load: 1µg per lane. Predicted/Observed size: Non-Reduced at 160kDa; Reduced at 55, 25 kDa.
