Datasheet for MB-001**1.0 M Tris HCl pH 7.2****Overview**

| | |
|---------------------|--------------------------------|
| Description: | 1.0 M Tris HCl pH 7.2 - MB-001 |
| Item No.: | MB-001 |
| Size: | 1 L |

Product Details

| | |
|--------------------|--|
| Background: | Tris solution is an abbreviation of the organic compound known as tris (hydroxymethyl)aminomethane. Tris is extensively used in biochemistry and molecular biology. In biochemistry, Tris is widely used as a component of buffer solutions, such as in TAE and TBE buffer, especially for solutions of nucleic acids. |
| Synonyms: | Tris solution, THAM, tris(hydroxymethyl)aminomethane |

Target Details

| | |
|----------------------------|--|
| Purity/Specificity: | This product was aseptically filtered through a Millipore 0.22 micron filter into clean, pre-sterilized containers. The product was tested on trypticase soy agar for 24 hours, 48 hours and 72 hours and was found to be negative for bacteria. |
| Relevant Links: | <ul style="list-style-type: none">MB-001 SDS |

Application Details

| | |
|--------------------------|--|
| Application Note: | Suitable for molecular immunology, molecular biology and nucleic acid methodologies, when applicable. Visit our newly expanded web site at www.rockland.com for methods using this and other buffers. This product is a concentrated stock solution and should be diluted appropriately with distilled, deionized water or equivalent to its final working concentration. This buffer consists of 1.0 M Tris HCl at pH 7.2. Meticulously prepared using ultra pure reagents dissolved in highly polished pharmaceutical grade deionized water. |
| Assay Dilutions: | All assays should be optimized by the user. Recommended dilutions (if any) may be listed below. |

Formulation

| | |
|-----------------|---------------------------|
| Physical State: | Liquid (sterile filtered) |
| Concentration: | 1.0M |
| Buffer: | See application note. |
| Preservative: | None |
| Stabilizer: | None |

Shipping & Handling

| | |
|---------------------|---|
| Shipping Condition: | Ambient |
| Storage Condition: | Store container at room temperature (18° to 26° C) prior to opening. If desired, the solution may be stored at 4° C or less. Some salts may precipitate out of solution at lower temperature. Allow buffer to equilibrate to room temperature (18° to 26° C) to restore solubility of some salts. |
| Expiration: | Expiration date is six (6) months from date of receipt. |
