Datasheet for R117-0050**Swine Blood Defibrinated****Overview**

Description:	Swine Blood Defibrinated - R117-0050
Item No.:	R117-0050
Size:	50 mL
Origin:	Swine

Product Details

Background:	Defibrinated swine blood is ideal for blood agar plate preparations. Blood Agar is a general purpose enriched medium often used to grow fastidious organisms and to differentiate bacteria based on their hemolytic properties.
Synonyms:	Sterile Swine Blood Defibrinated
Species of Origin:	Swine

Target Details

Purity/Specificity:	Defibrinated swine blood is aseptically collected and prepared to order from our colony of animals. Fibrin is mechanically removed during the clotting process without the presence of anticoagulants or other additives. Defibrinated swine blood is perishable and is collected and processed upon receipt of your order.
----------------------------	---

Application Details

Application Note:	Sterile swine Blood Defibrinated is ideal for Mueller-Hinton agar preparations as well as other blood agar plate preparations
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

Tissue Data

Tissue Type:	Blood
---------------------	-------

Sex:	Mixed
Strain:	Swine - Mixed

Formulation

Physical State:	Liquid
Buffer:	None
Anticoagulant:	Defibrinated
Sterility:	Sterile
Preservative:	None
Stabilizer:	None

Shipping & Handling

Shipping Condition:	Wet Ice
Storage Condition:	Store container at 4° C prior to opening. Use aseptic technique to maintain sterility when opening product. Be advised that blood is a perishable product and exact shelf may depend on application.
Expiration:	This product MAY be stable for up to four (4) weeks if properly stored and handled.

Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin.
