**Datasheet for R608-0100**

## Mouse Buffy Coat Preparation

### Overview

<b>Description:</b>	Mouse Buffy Coat Preparation - R608-0100
<b>Item No.:</b>	R608-0100
<b>Size:</b>	100 µL
<b>Origin:</b>	Mouse

### Product Details

<b>Background:</b>	Blood is a complex mixture of cells, proteins, metabolites and many other substances. Buffy coat preparations are useful for researchers interested in immunology and infectious disease research.
<b>Synonyms:</b>	Mouse Buffy Coat Preparation
<b>Species of Origin:</b>	Mouse

### Target Details

<b>Purity/Specificity:</b>	Buffy coat preparations are composed of leukocytes, trace amounts of red blood cells and other components. Buffy coat preparations are separated after a single low-speed centrifugation to remove the platelet rich plasma, buffy coat layer and erythrocytes (RBC). If desired, you may further purify this preparation of leukocytes by sedimentation using Percoll™ gradient centrifugation.
----------------------------	--

### Application Details

<b>Application Note:</b>	Buffy coat preparations are suitable for use as a source of nucleated peripheral blood mononuclear leukocytes (PBMC). Buffy coat preparations are generally enriched for leukocytes (WBC) and contain trace amounts of red cells and other blood components. This product is prepared in a buffer composed of 20.5 mg/ml Dextrose, 4.2mg/ml Sodium Chloride, 8.0 mg/ml Citric Acid Tri-sodium, adjusted to pH 6.1.
<b>Assay Dilutions:</b>	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

## Formulation

<b>Physical State:</b>	Frozen Cell Pellet
<b>Buffer:</b>	See application note.
<b>Sterility:</b>	Non-sterile

## Shipping & Handling

<b>Shipping Condition:</b>	Dry Ice
<b>Storage Condition:</b>	Store vial at -70° C or COLDER. For extended storage, aliquot contents to minimize freeze/thaw cycles.
<b>Expiration:</b>	Expiration date is one (1) year from date of receipt.

## Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale. Suggested uses of our products are not recommendations to use our products in violation of any patent or as a license under any patent of Rockland Immunochemicals, Inc. If you require a commercial license to use this material and do not have one, then return this material, unopened to: Rockland Inc., P.O. BOX 5199, Limerick, Pennsylvania, USA.
