

# SZABO SCANDIC

Part of Europa Biosite

## Produktinformation

Forschungsprodukte & Biochemikalien

Zellkultur & Verbrauchsmaterial

Diagnostik & molekulare Diagnostik

Laborgeräte & Service

Weitere Information auf den folgenden Seiten!  
See the following pages for more information!

### Lieferung & Zahlungsart

siehe unsere [Liefer- und Versandbedingungen](#)

### Zuschläge

- Mindermengenzuschlag
- Trockeneiszuschlag
- Gefahrgutzuschlag
- Expressversand

### SZABO-SCANDIC HandelsgmbH

Quellenstraße 110, A-1100 Wien

## Shc-SH2 (366-473): sc-4110 WB

### BACKGROUND

Src homology (SH2) domains are noncatalytic sequences that are conserved among a number of cytoplasmic signaling proteins. These signaling proteins are directly regulated by receptor tyrosine kinases and control the activation of mitogenic signal transduction pathways by such receptors. For instance, ligand-induced activation of the EGF and PDGF receptors induces dimerization, triggers receptor autophosphorylation on tyrosine residues and results in the binding of a number of cytoplasmic SH2 domain proteins such as PLC  $\gamma$ 1, Ras GAP and PI 3-kinase to the activated receptors. Another gene, Shc, encodes 46 and 52 kDa proteins with a single SH2 domain but no identifiable catalytic domain, suggesting that Shc is a member of the expanding class of proteins that function to couple activated growth factor receptors to signaling pathways that regulate proliferation of mammalian cells.

### SOURCE

Shc-SH2 (366-473) is expressed in *E. coli* as a 39 kDa tagged fusion protein corresponding to amino acids 366-473 of the SH2 domain of Shc of human origin.

### APPLICATIONS

Shc-SH2 (366-473) is suitable as a Western blotting control for sc-288, sc-967 and sc-1695.

### PRODUCT

Shc-SH2 (366-473) is purified from bacterial lysates (>98%) by glutathione agarose affinity chromatography; supplied as 10  $\mu$ g in 0.1 ml SDS-PAGE loading buffer.

### STORAGE

Store at -20° C; stable for one year from the date of shipment.

### RESEARCH USE

For research use only, not for use in diagnostic procedures.
