Rabbit anti-6X His tag antibody, clone SQab1879 (monoclonal)

Clone no. SQab1879

MONOSAN

---

|                           |                                                              |
|---------------------------|--------------------------------------------------------------|
| Product name              | Rabbit anti-6X His tag antibody, clone SQab1879 (monoclonal) |
| Host                      | Rabbit                                                       |
| Applications              | FC, ICC/IF, IP, WB                                           |
| Species reactivity        | Human, Mouse, Rat, Bovine                                    |
| Conjugate                 | -                                                            |
| Immunogen                 | KLH-conjugated HHHHHH (6X His).                              |
| Isotype                   | -                                                            |
| Clonality                 | Monoclonal                                                   |
| Clone number              | SQab1879                                                     |
| Size                      | 100 ul                                                       |
| Concentration             | n/a                                                          |
| Format                    | Purification with Protein A.                                 |
| Storage buffer            | PBS, 0.01% Sodium azide, 40% Glycerol and 0.05% BSA.         |
| Storage until expiry date | -20°C                                                        |

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Rabbit anti-6X His tag antibody, clone SQab1879 (monoclonal)

Clone no. SQab1879

MONOSAN

---

**Additional info**

Application note: \* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist. Storage instruction: For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use. Background:

Images

Immunofluorescence: 293 cells trasnfected with N-terminal 6X His tagged gene. Cells were fixed with 4% paraformaldehyde for 30 min at RT, permeabilized with 0.1% Triton X-100 for 10 min at RT then blocked with 10% goat serum for 30 min at RT. Cells were stained with anti-6X His tag

Western blot: 20 µg of 1) fusion protein with N-terminal 6X His tag, 2) fusion protein with C-terminal 6X His tag, 3) Multi-tag fusion protein containing 6X His tag, 4) 293 cells lysate-transfected with N-terminal 6X His tagged gene, 5) 293 cells lysate-transfected with C-terminal
