## Acetyl Hexapeptide-49 Acetate

## Chemical Properties

CAS No. :

Formula:

Molecular Weight:

Appearance: no data available

Storage: keep away from moisture

Powder: -20°C for 3 years | In solvent: -80°C for 1 year

## Biological Description

|               |                                                                                                                                                                                                                                             |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description   | Acetyl Hexapeptide-49 Acetate solution ameliorates the discomfort of nagging pain and itch occurring in sensitive skin as a result of PAR-2-induced release of pro-inflammatory mediators, besides restoring the damaged barrier integrity. |
| Targets(IC50) | Others                                                                                                                                                                                                                                      |
