ae name: (±)-11-hy	/droxy-Δ9-THC (CRM)
Specific target orga	(Contd. from pa an toxicity (single exposure) 1 H370 Causes damage to the central nervous syst and the visual organs.
Label elements	
GHS label elemen	ite
	sified and labeled according to the Globally Harmonized System (GHS).
Hazard pictogram	
GHS02 GHS06	GHS08
Signal word Dang	ler
	ng components of labeling:
Methanol	THO
(±)-11-hydroxy-∆9-	
Hazard statement H225	
	Highly flammable liquid and vapor. Toxic if swallowed, in contact with skin or if inhaled.
H361	Suspected of damaging fertility or the unborn child.
H370	Causes damage to the central nervous system and the visual organs.
Precautionary sta	
P201	Obtain special instructions before use.
P202	Do not handle until all safety precautions have been read and understood.
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sour
	No smoking.
P240	Ground / bond container and receiving equipment.
P241	Use explosion-proof [electrical/ventilating/lighting] equipment.
P242	Use non-sparking tools.
P243	Take action to prevent static discharge.
P260	Do not breathe dust/fume/gas/mist/vapors/spray.
P264	Wash thoroughly after handling.
P270 P271	Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area.
P280	Wear protective gloves/protective clothing/eye protection/face protection/hea
1200	protection.
P301+P310	If swallowed: Immediately call a poison center/doctor.
P321	Specific treatment (see on this label).
P330	Rinse mouth.
P303+P361+P353	If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin
	water [or shower].
P304+P340	If inhaled: Remove person to fresh air and keep comfortable for breathing.
P308+P313	IF exposed or concerned: Get medical advice/attention.
P312	Call a poison center/doctor if you feel unwell.
P361+P364 P370+P378	Take off immediately all contaminated clothing and wash it before reuse. In case of fire: Use CO2, powder or water spray to extinguish.
P403+P233	Store in a well-ventilated place. Keep container tightly closed.
P403+P235	Store in a well-ventilated place. Keep cool.
P405	Store locked up.
P501	Dispose of contents/container in accordance with local/regional/national/internati
	regulations.
	Tegulations.

Date of issue: 03/20/2025

Revision date 03/20/2025

#### Trade name: (±)-11-hydroxy-Δ9-THC (CRM)

#### **3 Composition/information on ingredients**

· Chemical characterization: Mixtures

• Description: Mixture of the substances listed below with nonhazardous additions.

#### Dangerous components:

•		
CAS: 67-56-1	Methanol	99.9%
RTECS: PC1400000		
CAS: 34675-49-5	(±)-11-hydroxy-Δ9-THC	0.1%

#### **4 First-aid measures**

#### · Description of first aid measures

General information:

Immediately remove any clothing soiled by the product.

Remove breathing apparatus only after contaminated clothing have been completely removed.

In case of irregular breathing or respiratory arrest provide artificial respiration.

#### · After inhalation:

Supply fresh air or oxygen; call for doctor.

In case of unconsciousness place patient stably in side position for transportation.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing: Do not induce vomiting; immediately call for medical help.
- Most important symptoms and effects, both acute and delayed No further relevant information available.

(Contd. on page 4)

US

Date of issue: 03/20/2025

Revision date 03/20/2025

(Contd. from page 3)

#### Trade name: (±)-11-hydroxy-Δ9-THC (CRM)

• **Indication of any immediate medical attention and special treatment needed** No further relevant information available.

#### **5** Fire-fighting measures

- Extinguishing media
- Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture
- Can release vapors that form explosive mixtures at temperatures at or above the flashpoint.

Container explosion may occur under fire conditions.

Emits toxic fumes under fire conditions.

Sensitive to static discharge.

Vapors can travel to a source of ignition and flash back.

67-56-1During heating or in case of fire poisonous gases are produced.

- · Advice for firefighters
- · Protective equipment: Mouth respiratory protective device.

#### 6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Mount respiratory protective device.
   Wear protective equipment. Keep unprotected persons away.
   Environmental precautions:
- Dilute with plenty of water.
- Do not allow to enter sewers/ surface or ground water.

• **Methods and material for containment and cleaning up:** Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.

Protective Action Criteria for Chemicals

· PAC-1:	
67-56-1 Methanol	530 ppm
· PAC-2:	
67-56-1 Methanol	2,100 ppm
· PAC-3:	
67-56-1 Methanol	7200* ppm

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

#### 7 Handling and storage

#### Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols.

• Information about protection against explosions and fires: Keep ignition sources away - Do not smoke.

(Contd. on page 5)

US

Date of issue: 03/20/2025

Revision date 03/20/2025

(Contd. from page 5)

#### · Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

#### • Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

#### • Eye protection:

Tightly sealed goggles

### 9 Physical and chemical properties

<ul> <li>Information on basic physical and chemical properties</li> <li>General Information</li> </ul>				
· Physical state	Liquid			
· Color:	According to product specification			
· Odor:	Characteristic			
Structural Formula	C21H30O3			
Molecular Weight	330.5 g/mol			
Storage Buffer				
· Odor threshold:	Not determined.			
· Formulation	A 1 mg/ml solution in methanol			
<ul> <li>Melting point/Melting range:</li> </ul>	-98 °C (-144.4 °F)			
<ul> <li>Boiling point/Boiling range:</li> </ul>	64.7 °C (148.5 °F)			
· Flammability:	Highly flammable.			
Explosion limits:				
· Lower:	5.5 Vol %			
· Upper:	44 Vol %			
· Flash point:	9.7 °C (49.5 °F)			
· Auto igniting:	455 °C (851 °F)

#### **12 Ecological information**

- · Toxicity
- Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- · Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- · vPvB: Not applicable.
- Other adverse effects
- · Additional ecological information:
- · General notes:

Water hazard class 2 (Self-assessment): hazardous for water

Do not allow product to reach ground water, water course or sewage system.

(Contd. on page 9)

Date of issue: 03/20/2025

Revision date 03/20/2025

(Contd. from page 8)

#### Trade name: (±)-11-hydroxy-∆9-THC (CRM)

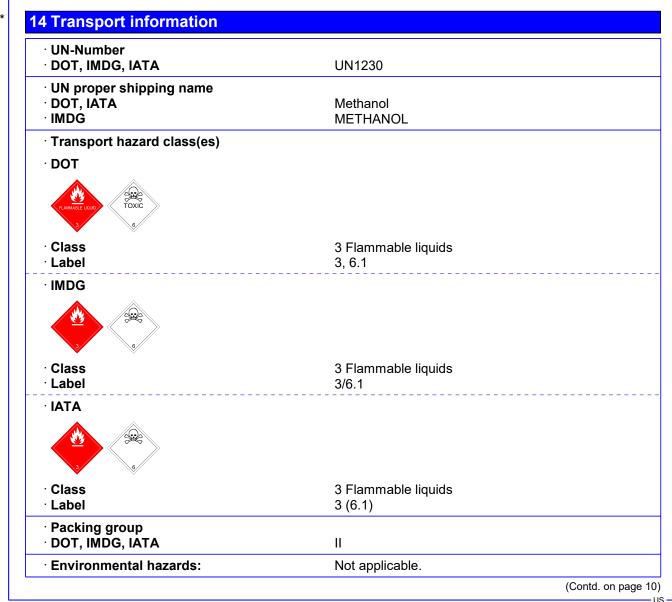

Danger to drinking water if even small quantities leak into the ground.

#### **13 Disposal considerations**

- · Waste treatment methods
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agent: Water, if necessary with cleansing agents.
