

# Safety Data Sheet

acc. to OSHA HCS

Date of issue: 11/21/2024

Revision date 11/21/2024

Page 1/9

## **1 Identification**

- Product identifier
- · Trade name: DMSO Assay Reagent
- · Synonym
- · CAS Number:
- 67-68-5
- · Other means of identification
- · Article number: 700001
- EC number: 200-664-3
- Application of the substance / the mixture
- This product is for research use Not for human or veterinary diagnostic or therapeutic use.
- Details of the supplier of the safety data sheet
   Manufacturer/Supplier: Cayman Chemical Co.
   1180 E. Ellsworth Rd. Ann Arbor, MI 48108 USA
- · Information department: Product safety department
- Emergency telephone number: During normal opening times: +1 (734) 971-3335 US/CANADA: 800-424-9300 Outside US/CANADA: 703-741-5970

## 2 Hazard(s) identification

· Classification of the substance or mixture

Flammable liquids 4 H227 Combustible liquid.

### · Label elements

· GHS label elements

The substance is classified and labeled according to the Globally Harmonized System (GHS).

- · Hazard pictograms None
- · Signal word Warning
- · Hazard statements
- H227 Combustible liquid.
- Precautionary statements
- P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
- P370+P378 In case of fire: Use CO2, powder or water spray to extinguish.
- P403 Store in a well-ventilated place.
- P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

(Contd. on page 2)

ÚS

Date of issue: 11/21/2024

Revision date 11/21/2024

### Trade name: DMSO Assay Reagent

<ul> <li>Information pertaining to particular dangers for man and environment:</li> <li>Classification system:</li> <li>NFPA ratings (scale 0 - 4)</li> </ul>	(Contd. from page 1)
Health = 0 Fire = 2 Reactivity = 0

<ul> <li>Other hazards</li> <li>Results of PBT and vPvB assessment</li> <li>PBT: Not applicable.</li> <li>vPvB: Not applicable.</li> <li>Classification according to (d)(1)(ii) of § 1910.12000 The SDS issuer does not object to the classifications provided by importers of precursor products.</li> <li>Hazards not otherwise classified There are no adverse physical or health effects known that are not covered by the h Hazard Communications Standard.</li> </ul>	
3 Composition/information on ingredients	
Chemical characterization: Substances CAS No. Description 67-68-5 Dimethyl sulfoxide Identification number(s) EC number: 200-664-3	
· Dangerous components:         CAS: 67-68-5       Dimethyl sulfoxide         RTECS: PV6210000	100.0%
4 First-aid measures	

- · Description of first aid measures
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Generally the product does not irritate the skin.
- After eye contact: Rinse opened eye for several minutes under running water.
- After swallowing: If symptoms persist consult doctor.
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

(Contd. on page 3)

Date of issue: 11/21/2024

Revision date 11/21/2024

### Trade name: DMSO Assay Reagent

(Contd. from page 2)

## **5 Fire-fighting measures**

- · Extinguishing media
- · Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture
- Can release vapors that form explosive mixtures at temperatures at or above the flashpoint.
- Container explosion may occur under fire conditions.
- Emits toxic fumes under fire conditions.
- Sensitive to static discharge.
- Vapors can travel to a source of ignition and flash back.
- Advice for firefighters
- · Protective equipment: No special measures required.

### 6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Not required.

- · Environmental precautions:
- Dilute with plenty of water.

Do not allow to enter sewers/ surface or ground water.

- **Methods and material for containment and cleaning up:** Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13.
- Protective Action Criteria for Chemicals

· PAC-1:

150 ppm

· PAC-2:

290 ppm

#### · PAC-3:

1,800 ppm

### · Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

## 7 Handling and storage

Precautions for safe handling

No special precautions are necessary if used correctly.

Avoid breathing dust/fume/gas/mist/vapours/spray.

Avoid prolonged or repeated exposure.

Keep away from sources of ignition.

Take precautionary measures against static discharge.re.

· Information about protection against explosions and fires: No special measures required.

### • Conditions for safe storage, including any incompatibilities

- Storage: Store in accordance with information listed on the product insert.
- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.

• Further information about storage conditions: None.

115

### Trade name: DMSO Assay Reagent

• Specific end use(s) No further relevant information available.

### 8 Exposure controls/personal protection

Control parameters

• Components with limit values that require monitoring at the workplace:

67-68-5 Dimethyl sulfoxide

WEEL Long-term value: 250 ppm

• Additional information: The lists that were valid during the creation were used as basis.

- · Exposure controls
- Appropriate engineering controls No further data; see section 7.
- · Personal protective equipment:
- · General protective and hygienic measures: Wash hands before breaks and at the end of work.
- · Breathing equipment: Not required.
- Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

### · Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection: Goggles recommended during refilling.

# 9 Physical and chemical properties

<ul> <li>Information on basic physical and che General Information</li> </ul>		
Physical state	Fluid	
· Color:	Colorless	
· Odor:	Odorless	
· Structural Formula	C2H6OS	
<ul> <li>Molecular Weight</li> </ul>	78.13 g/mol	
· Storage Buffer	C C	
· Odor threshold:	Not determined.	
· Formulation		
<ul> <li>Melting point/Melting range:</li> </ul>	18.5 °C (65.3 °F)	
Boiling point/Boiling range:	189 °C (372.2 °F)	
· Flammability:	Not applicable.	
· Explosion limits:		
Lower:	2.6 Vol %

Solids content:	0.0 %	
<ul> <li>Change in condition</li> </ul>		
<ul> <li>Evaporation rate</li> </ul>	Not determined.	

# **10 Stability and reactivity**

· Reactivity No further relevant information available.

- Chemical stability
- **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
- Possibility of hazardous reactions No dangerous reactions known.
- **Conditions to avoid** No further relevant information available.
- Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

	n-standard sources for toxicological information where used.
2 Ecol	ogical information
· Toxici	ic toxicity: No further relevant information available.
	stence and degradability No further relevant information available.
	cumulative potential No further relevant information available.
	ity in soil No further relevant information available.
	<b>ts of PBT and vPvB assessment</b> Not applicable.
	Not applicable.
· Other	adverse effects
	onal ecological information:
	ral notes:
	hazard class 1 (Assessment by list): slightly hazardous for water t allow undiluted product or large quantities of it to reach ground water, water course or sewage
systen	

# **13 Disposal considerations**

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

(Contd. on page 7)

Date of issue: 11/21/2024

Revision date 11/21/2024

## Trade name: DMSO Assay Reagent

(Contd. from page 6)

- · Uncleaned packagings:
- **Recommendation:** Disposal must be made according to official regulations.
- Recommended cleansing agent: Water, if necessary with cleansing agents.

### **16 Other information**

All chemicals may pose unknown hazards and should be used with caution. This SDS applies only to the material as packaged. If this product is combined with other materials, deteriorates, or becomes contaminated, it may pose hazards not mentioned in this SDS. Cayman Chemical Company assumes no responsibility for incidental or consequential damages, including lost profits, arising from the use of these data. It shall be the user's responsibility to develop proper methods of handling and personal protection based on the actual conditions of use. While this SDS is based on technical data judged to be reliable, Cayman Chemical Company assumes no responsibility for the completeness or accuracy of the information contained herein.
