

Service Technician full-time (38,5 hours)

As a service technician, you bring high-quality services and our service philosophy to our customers. You promote customer loyalty to Szabo-Scandic and are also involved in the sales process for innovative technologies and equipment.

Tasks:

- Maintenance, repair, service and installation of devices in the field of life science and biotechnology
- User training
- Safety tests including documentation

Qualifications:

- Degree in the field of biomedical engineering, mechatronics, electrical engineering, electronics or comparable training with a scientific background
- Experience in equipment service is an advantage
- Driving license B, willingness to travel throughout Austria
- Good IT-Skills
- Very good German and good English knowledge
- Contact and communication with customers (laboratories in the field of biotechnology and hospital)

We offer interesting job responsibilities in an ambitious team.

A neutral company car (also for private use) is provided.

Annual gross salary of € 42.000 depending on qualification and experience. Overpayment possible. Integrated into the company bonus system.

Please send your detailed application with your CV to: bewerbung@szabo-scandic.com.

There for you for 60 years
