

revogene®

Revogene® – the platform built to grow with you.

You and your patients are central to everything we do—from research to new products in our growing pipeline. We work hard every day to deliver expertise and innovation in gastrointestinal and respiratory disease testing and supporting the wellbeing of children to improve health outcomes and build a healthier community.

See what we have for you today, and what the future holds for our growing Revogene menu.

Revogene® Available Test Menu

FDA Cleared & CE Mark

- *C. difficile*
- Strep A
- GBS LB
- Carba Colony

CE Mark Only

- GBS DS

TGA Approved

- *C. difficile*
- GBS DS

Revogene® Future Test Menu

(Under Development*)

• SARS-CoV-2 EUA

• Enteric Panel

- *Campylobacter spp.*
- Enterotoxigenic *E. coli* (ETEC) LT/ST
- *Salmonella spp.*
- Shiga-like toxin producing *E. coli* (STEC) stx1/stx2 (incl. identification of *E. coli* 0157)
- *Shigella spp./Enteroinvasive E. coli* (EIEC)
- *Vibrio spp.*
- *Yersinia enterocolitica*

• Respiratory Panel

- Influenza A
- Influenza B
- RSV
- SARS-CoV-2

• MRSA

* Not cleared or approved for use

The Revogene® Platform Advantage

Time Saving, Walk-Away Efficiencies

Flexible, standardized workflow
Minimal hands-on time

Test Capacity

Allows up to 8 samples in one run

Flexible

Ability to perform different assays simultaneously in the same run
Single analyte and multiplex testing capability

Convenience

Reagents stored at room temperature

Molecular Accuracy

Real-time PCR technology

Early Call for Positives

Early call feature for certain assays

User Friendly

Intuitive graphical user interface (GUI)

Data Management

Bidirectional LIS interface capable

Small Footprint

Fully integrated and compact system
No external heat block
Dimensions: 33 cm H x 24 cm W x 40 cm D

Customer Support

Comprehensive implementation includes on-site installation and training of the Revogene platform

Sample to Results

Minimal workflow. Minimal hands-on time.

Looking to future proof your lab? Let's talk.
