Anti-C3a-receptor [3G7] Bulk Size Ab00358-10.3-BT

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This chimeric human antibody was made using the variable domain sequences of the original mouse scFv format for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Human IgG1, Fc Silent™, Kappa

Clone Number: 3G7

Alternative Name(s) of Target: Complement component receptor 1; C3AR1

UniProt Accession Number of Target Protein: Q16581

Published Application(s): ELISA, FC

Published Species Reactivity: Human

Immunogen: The 2e loop of the C3a receptor.

Specificity: Binds specifically to the 2e loop of the human C3a receptor, residues 185-193.

Application Notes: This scFv antibody binds to the 2e loop of the human C3a receptor, a G protein-coupled receptor stimulating chemotaxis, superoxide anion generation and granule enzyme release.

Antibody First Published in: Hawlisch et al. 2001 Site-specific anti-C3a receptor single-chain antibodies selected by differential panning on cellulose sheets. Analytica Biochemistry 2001; 293(1):142-145

PMID: [11373092](#)

Note on publication: Describes the selection of scFv fragments with specificity for the C3a receptor from phage-display libraries.

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg /ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic

procedures for humans or animals.
