## Anti-C3a-receptor [3G7] Bulk Size Ab00358-10.6-BT

This is a Fab fragment with a his-tag.

This chimeric human antibody was made using the variable domain sequences of the original mouse scFv format for improved compatibility with existing reagents, assays and techniques.

**Isotype and Format:** Human Fab fragment, His-Tagged, Kappa

**Clone Number:** 3G7

**Alternative Name(s) of Target:** Complement component receptor 1; C3AR1

**UniProt Accession Number of Target Protein:** Q16581

**Published Application(s):** ELISA, FC

**Published Species Reactivity:** Human

**Immunogen:** The 2e loop of the C3a receptor.

**Specificity:** Binds specifically to the 2e loop of the human C3a receptor, residues 185-193.

**Application Notes:** This scFv antibody binds to the 2e loop of the human C3a receptor, a G protein-coupled receptor stimulating chemotaxis, superoxide anion generation and granule enzyme release.

**Antibody First Published in:** Hawlisch et al. 2001 Site-specific anti-C3a receptor single-chain antibodies selected by differential panning on cellulose sheets. Analytica Biochemistry 2001; 293(1):142-145

[PMID:11373092](#)

**Note on publication:** Describes the selection of scFv fragments with specificity for the C3a receptor from phage-display libraries.

### Product Form

**Size:** 1 mg Purified antibody in bulk size.

**Purification:** Purified by Immobilized Metal Affinity Chromatography

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg /ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
